

# Welcome to the First Peer-Learning Workshop

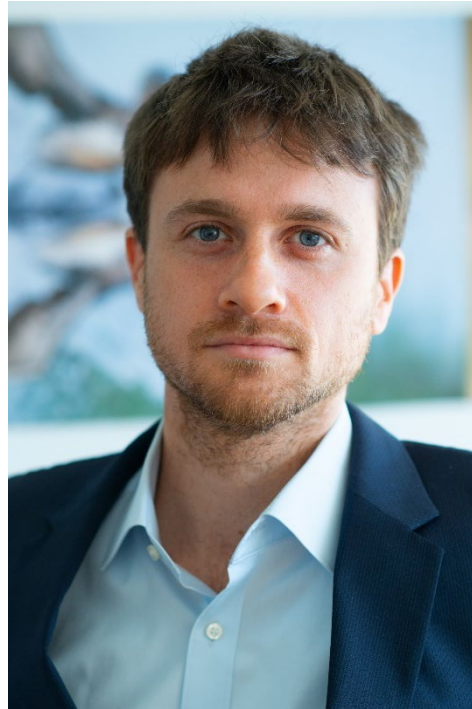

23 November 2021; 10.00-12.00 & 14.00-16.00 (CET)

Virtual Event

*This project has received funding from the European Union's Horizon 2020  
research and innovation programme under grant agreement n° 101003622.*

## Tobias Wagner

- Researcher -

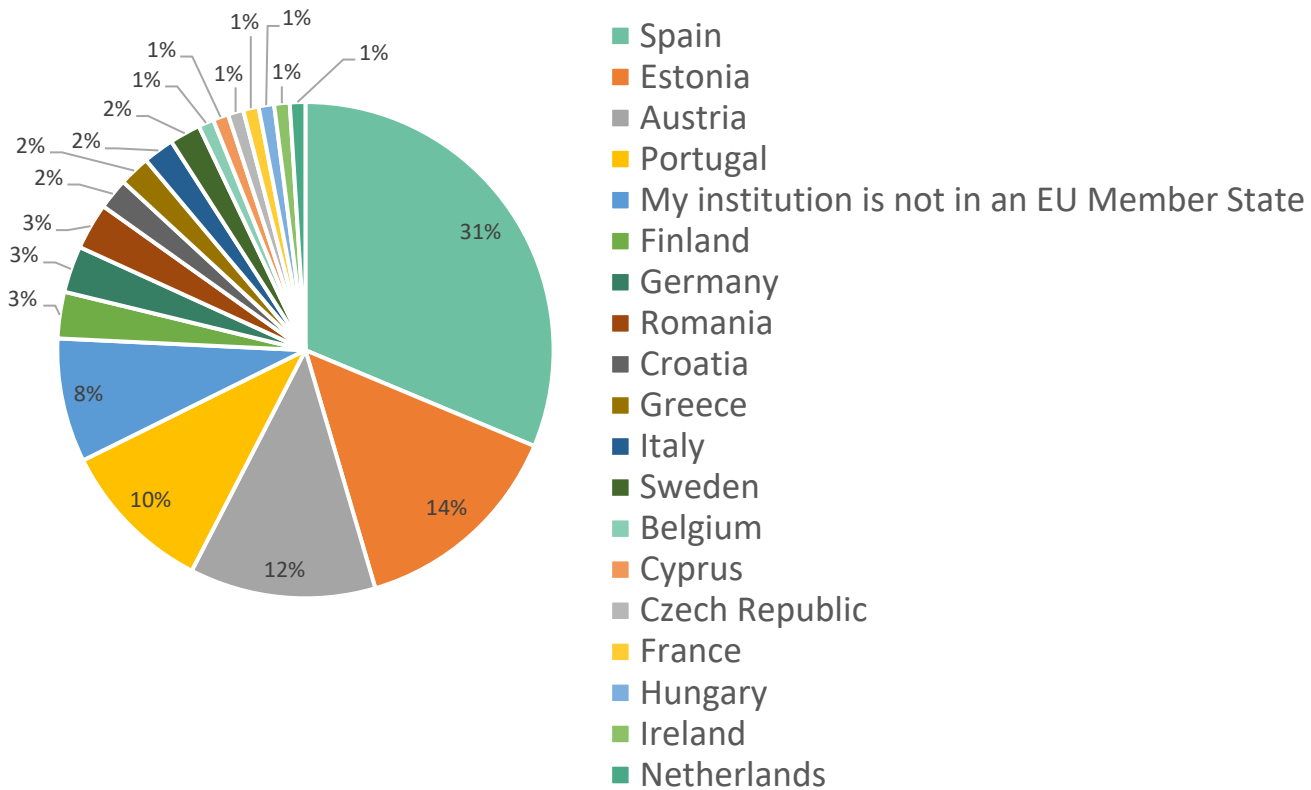

Resources & Transport Division  
Oeko-Institut e.V., Germany

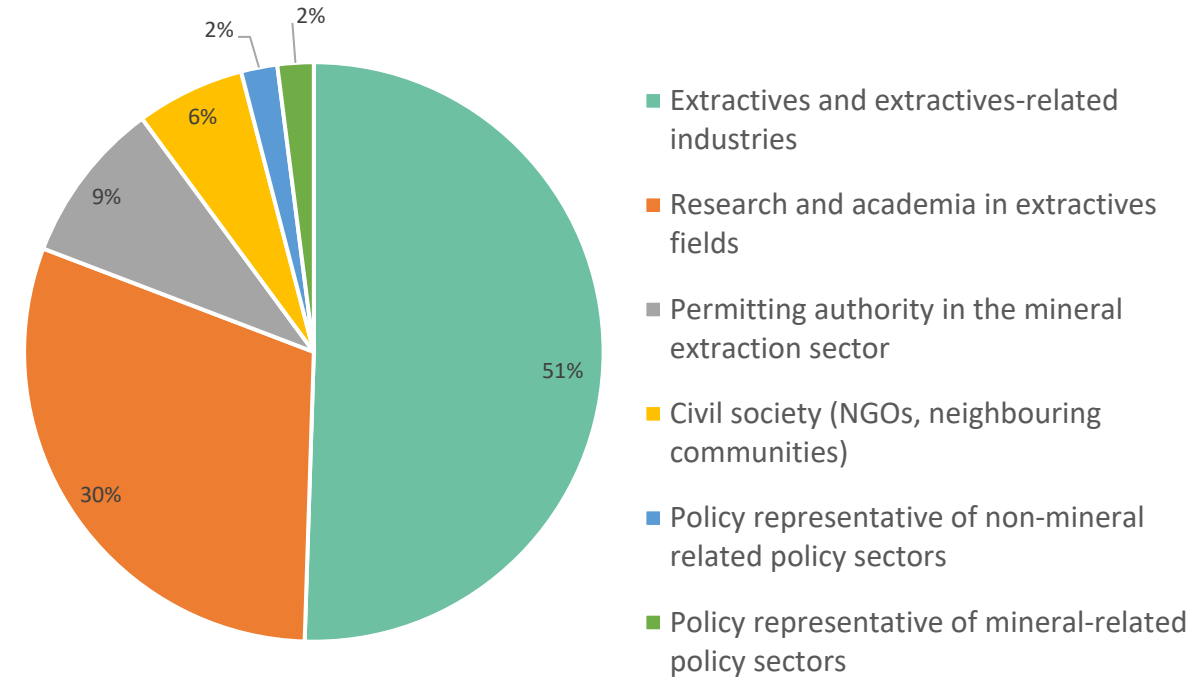

## Setting:

- Identify capacity building needs and demands for design of learning materials, toolkit, workshops, etc.
- Survey available in mostly all EU languages
- 99 replies in total (incl. some of you?)

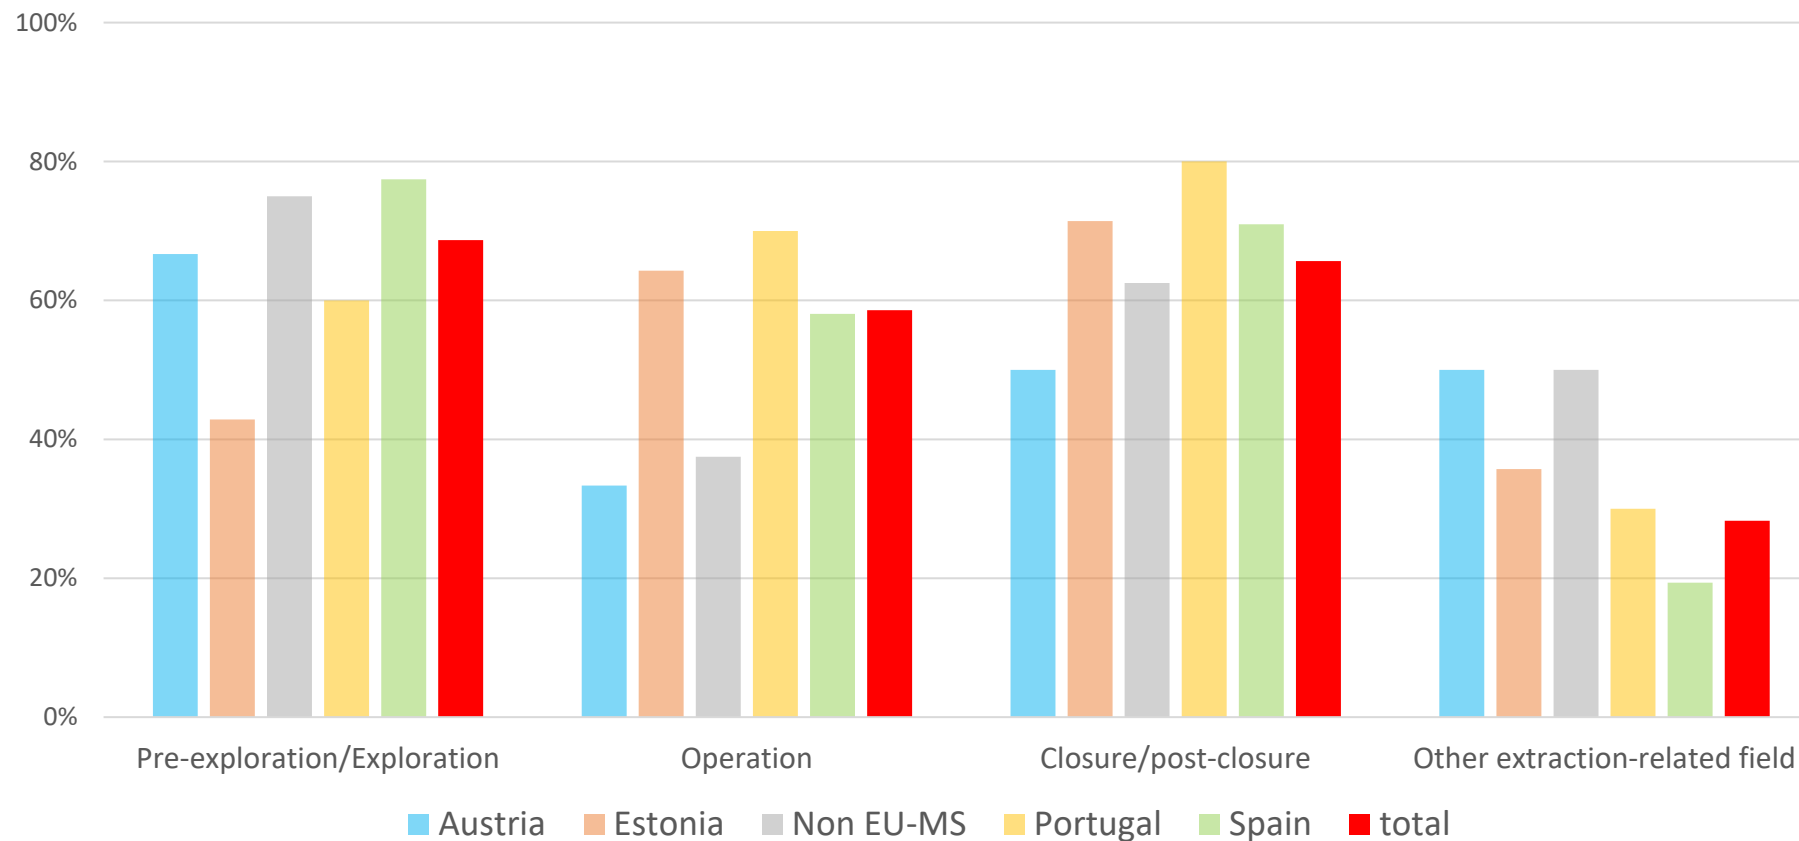

## In which EU-27 Member State is your institution located?

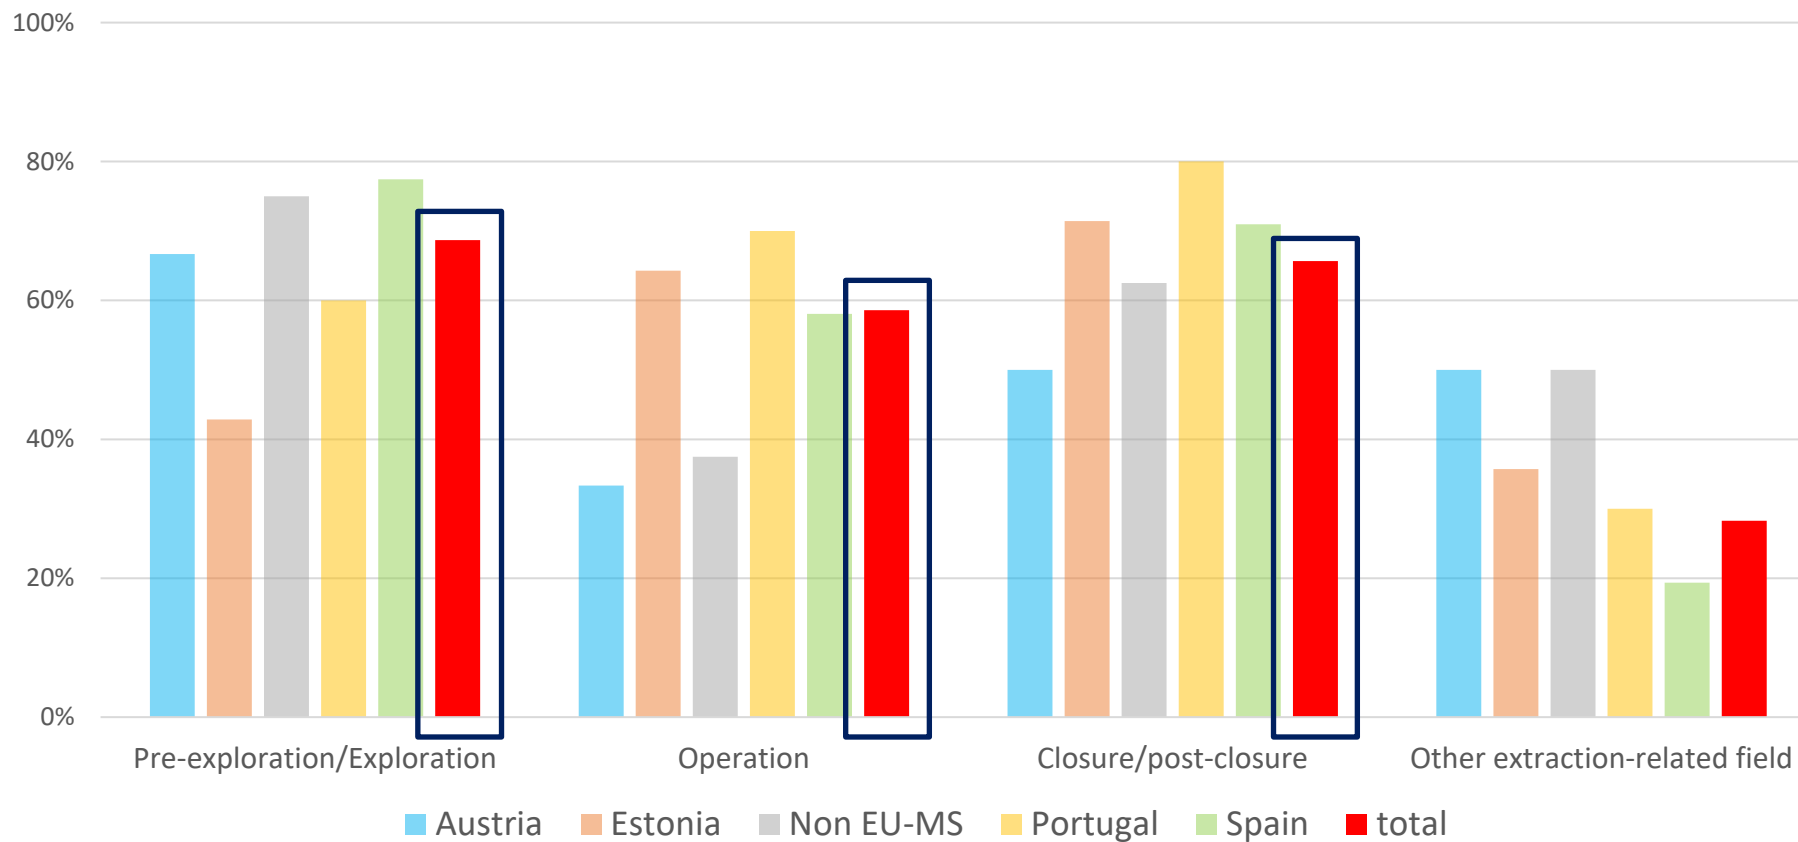

## Which stakeholder group do you represent?

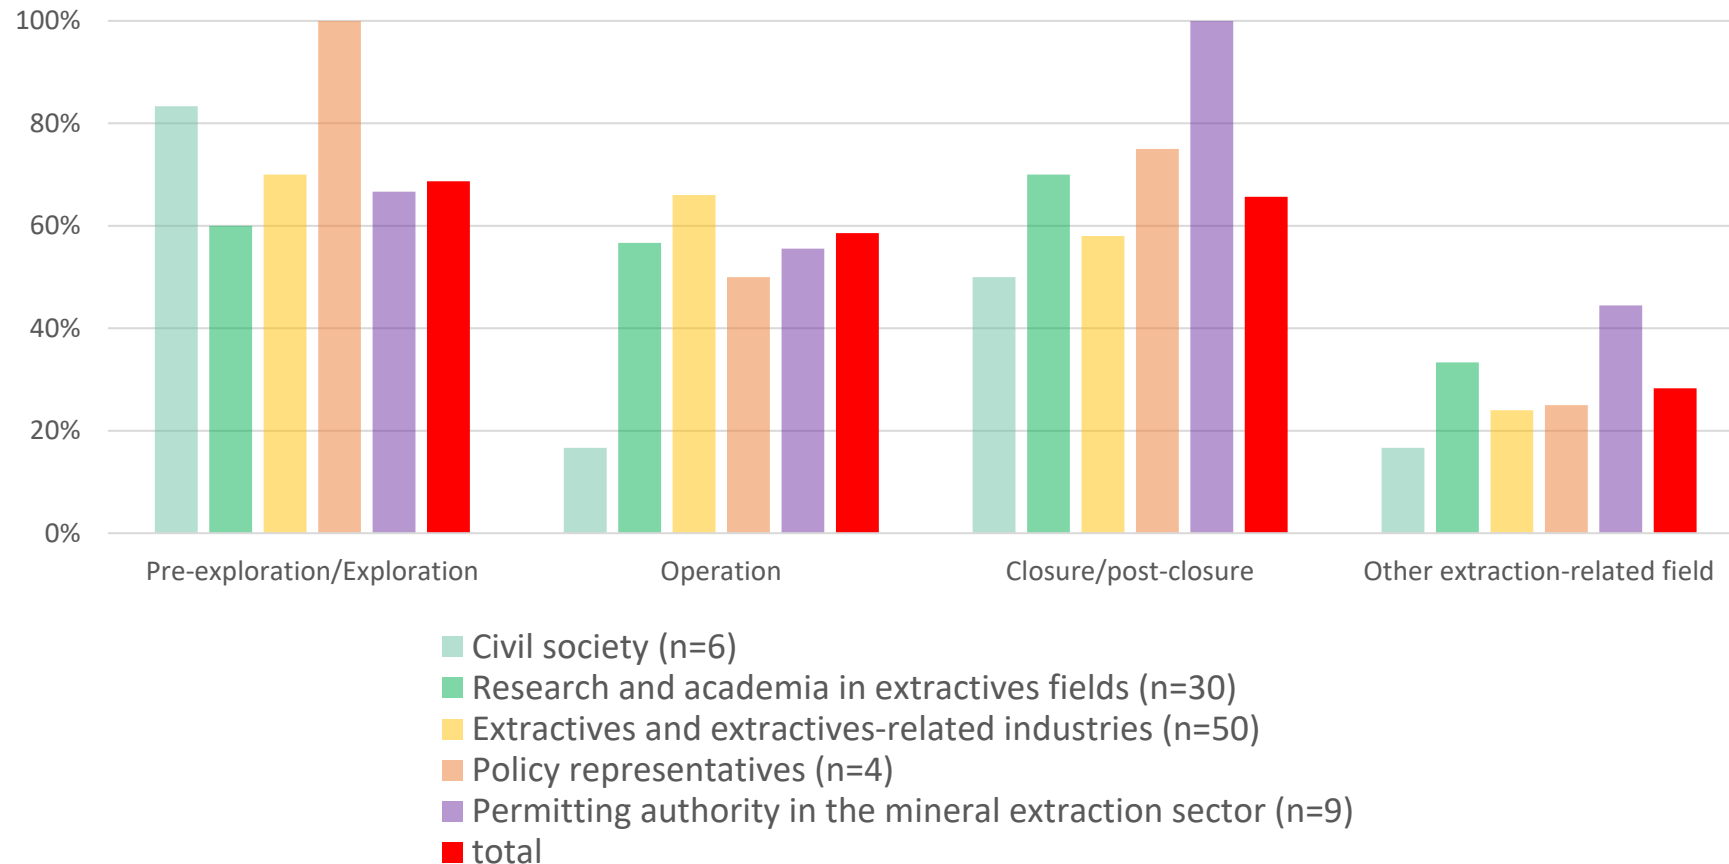

In your field of work within the extractives industry, in which stage(s) of development is capacity building needed? (More than one response is possible.)

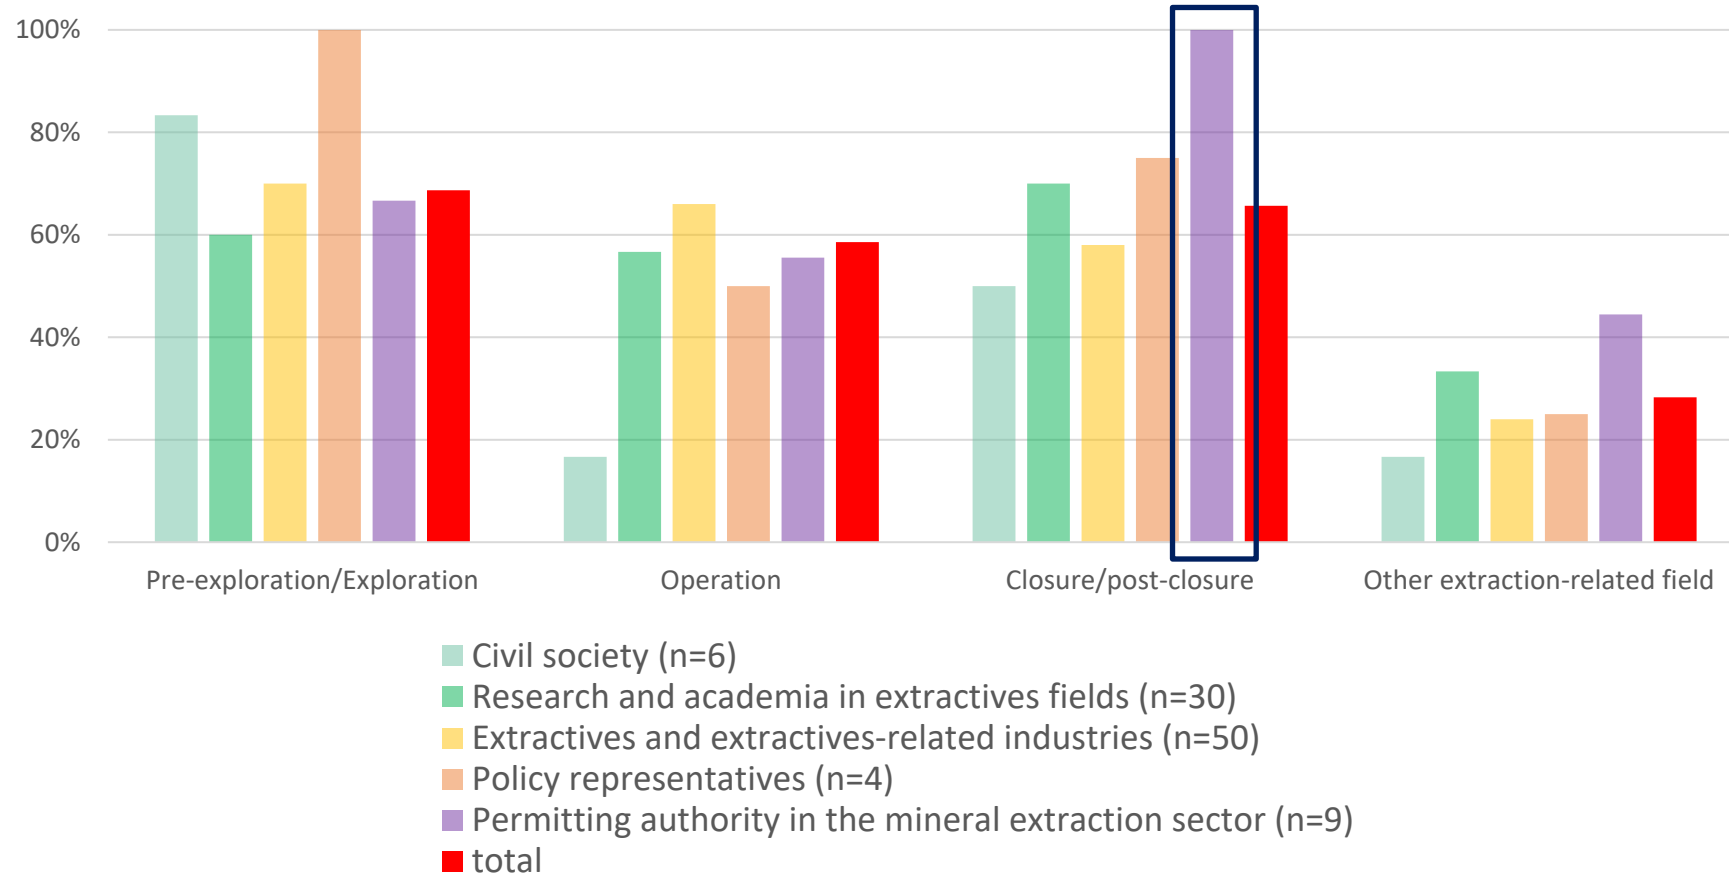

In your field of work within the extractives industry, in which stage(s) of development is capacity building needed? (More than one response is possible.)

In your field of work within the extractives industry, in which stage(s) of development is capacity building needed? (More than one response is possible.)

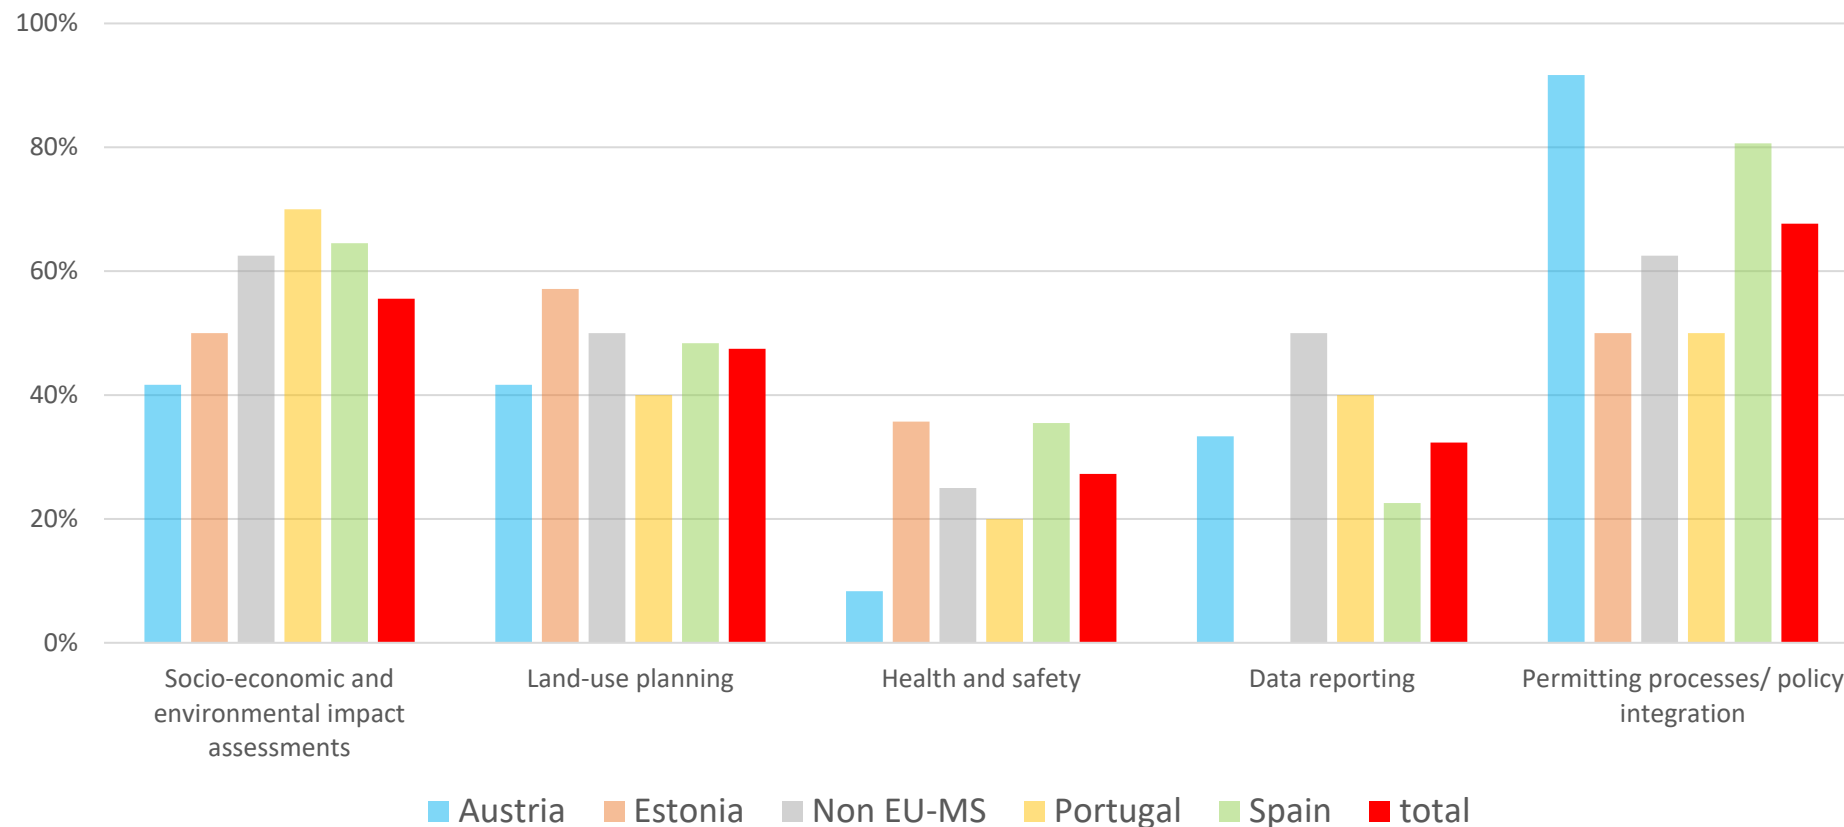

In your field of work within the extractives industry, in which stage(s) of development is capacity building needed? (More than one response is possible.)

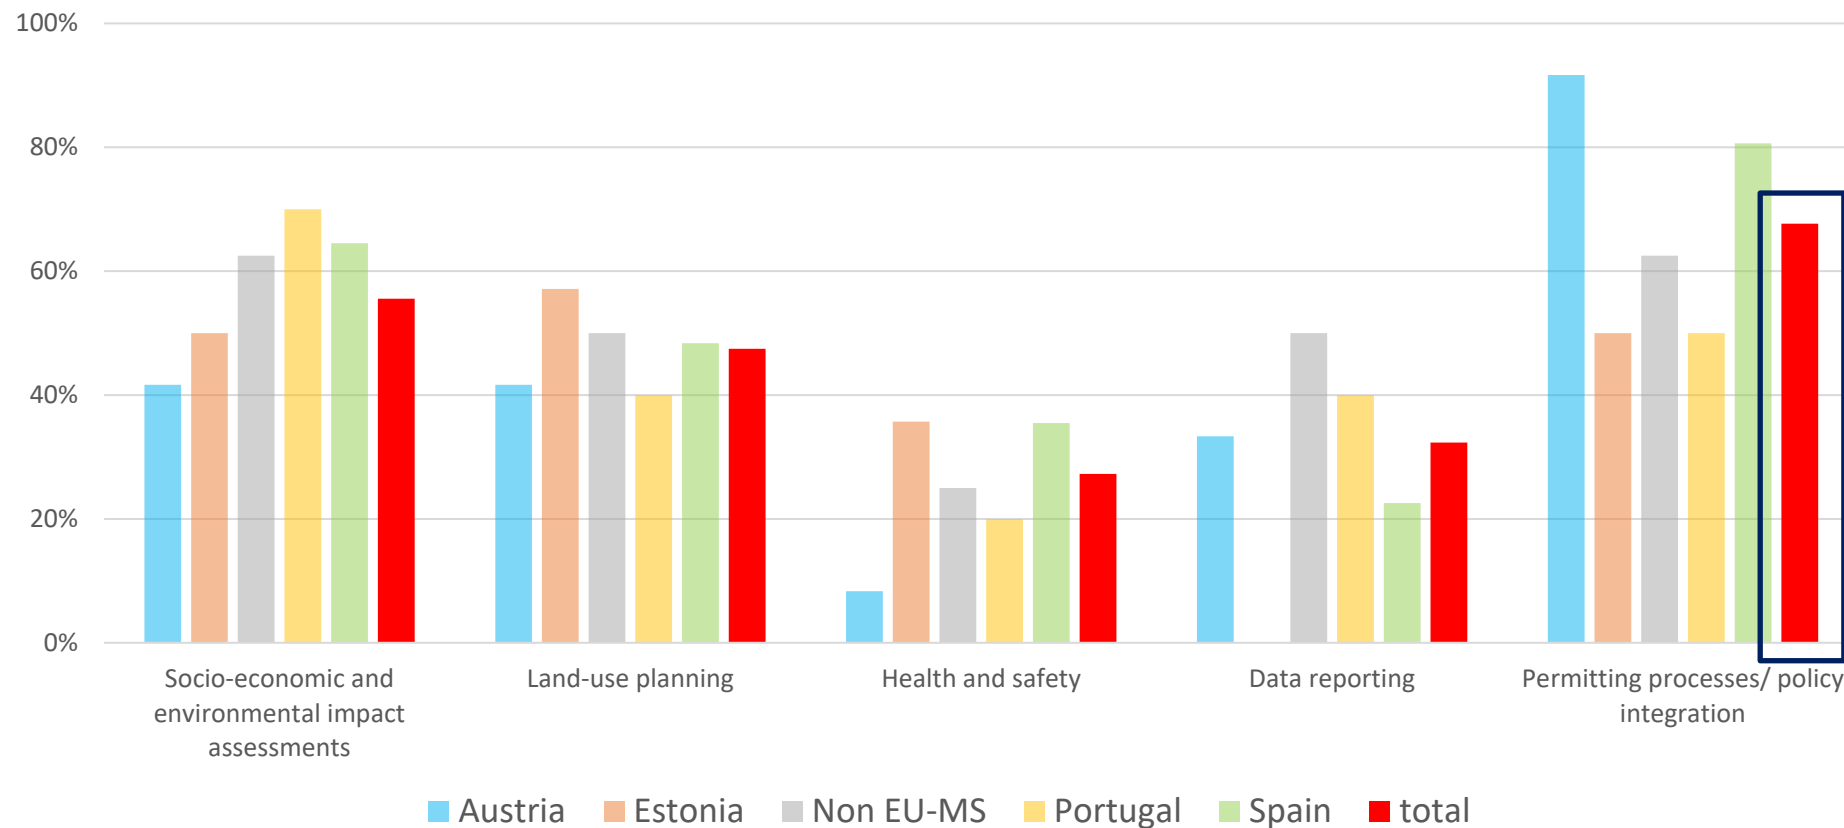

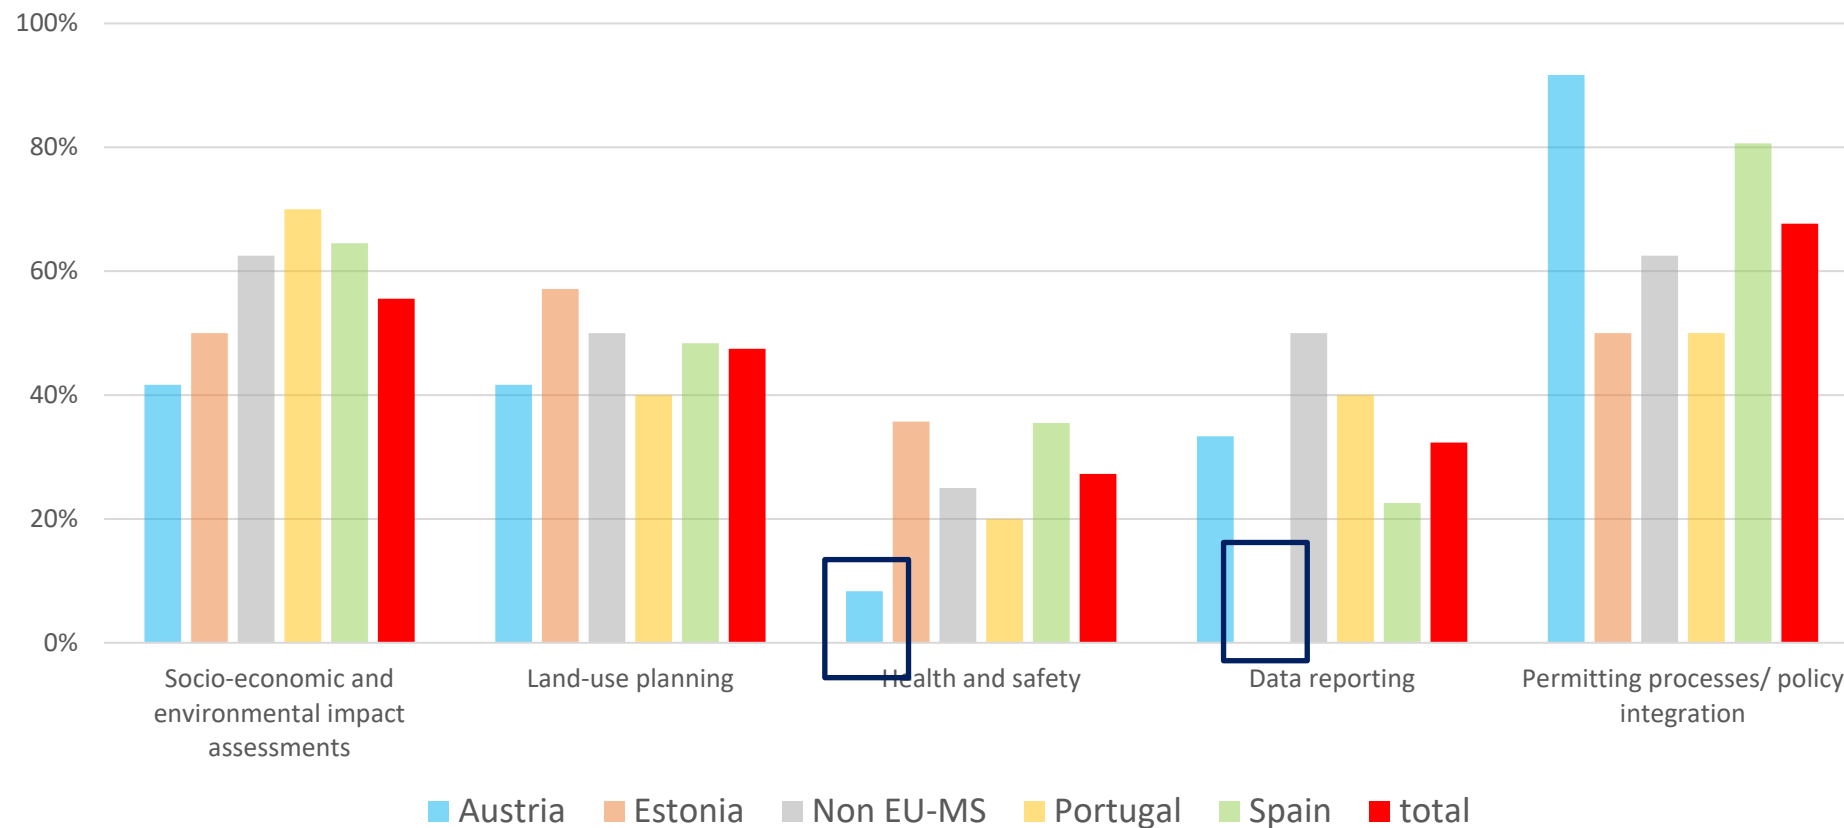

In your daily working routine, in which SUMEX focus area would you personally most benefit from learning and exchange activities with other practitioners? (More than one answer possible.)

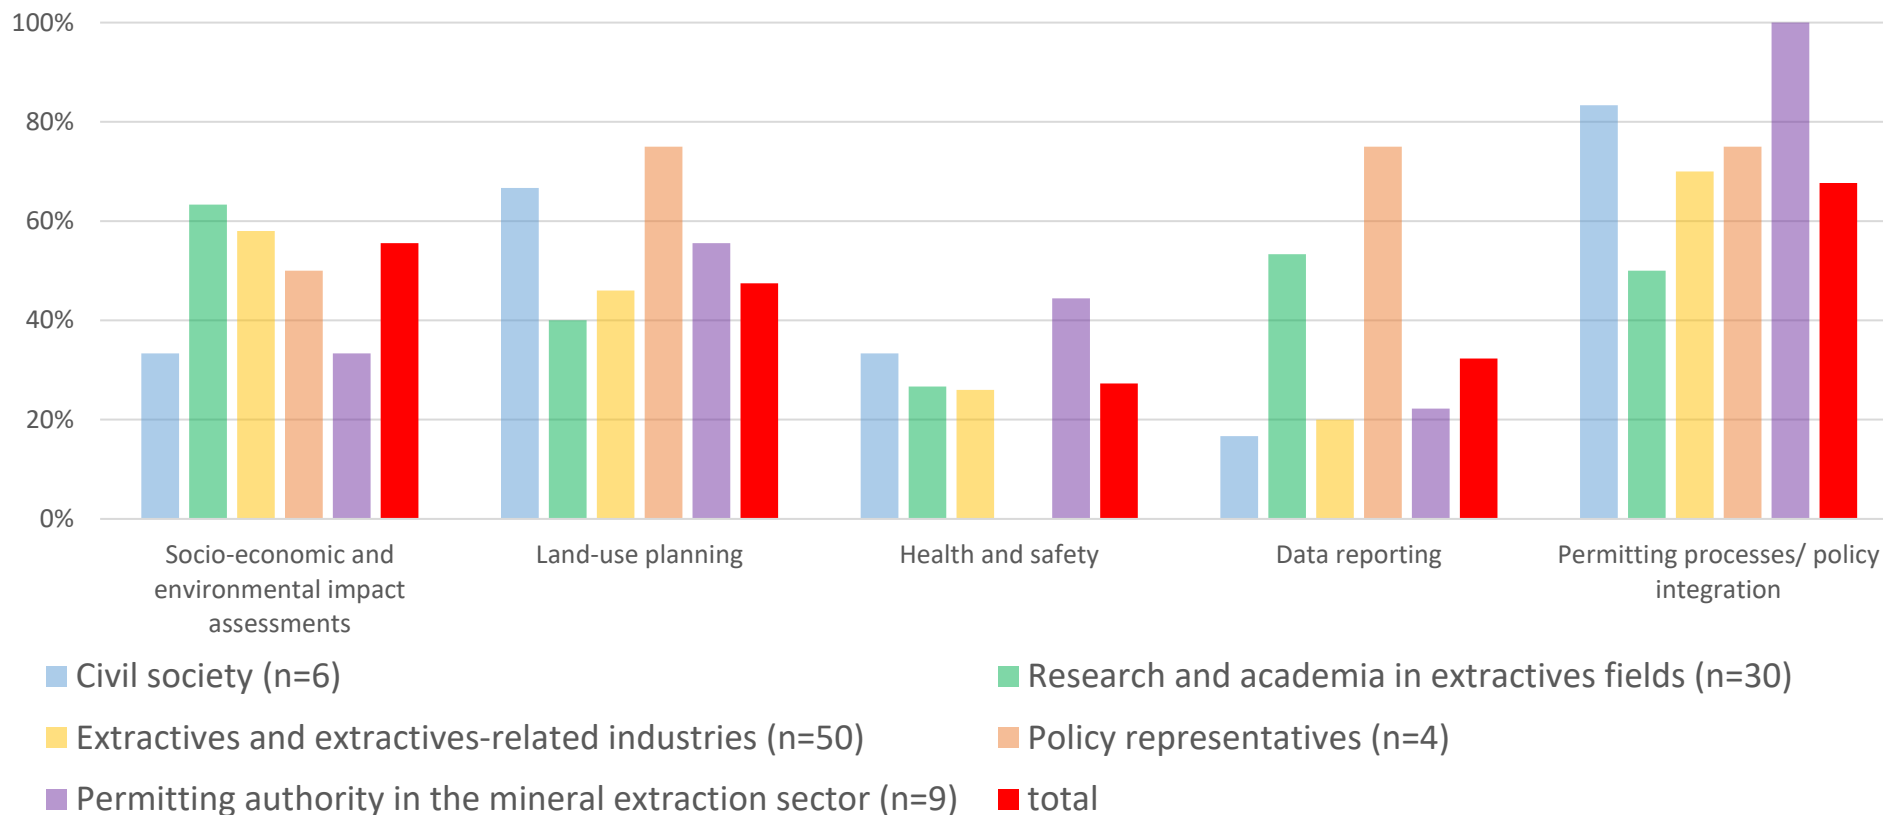

In your daily working routine, in which SUMEX focus area would you personally most benefit from learning and exchange activities with other practitioners? (More than one answer possible.)

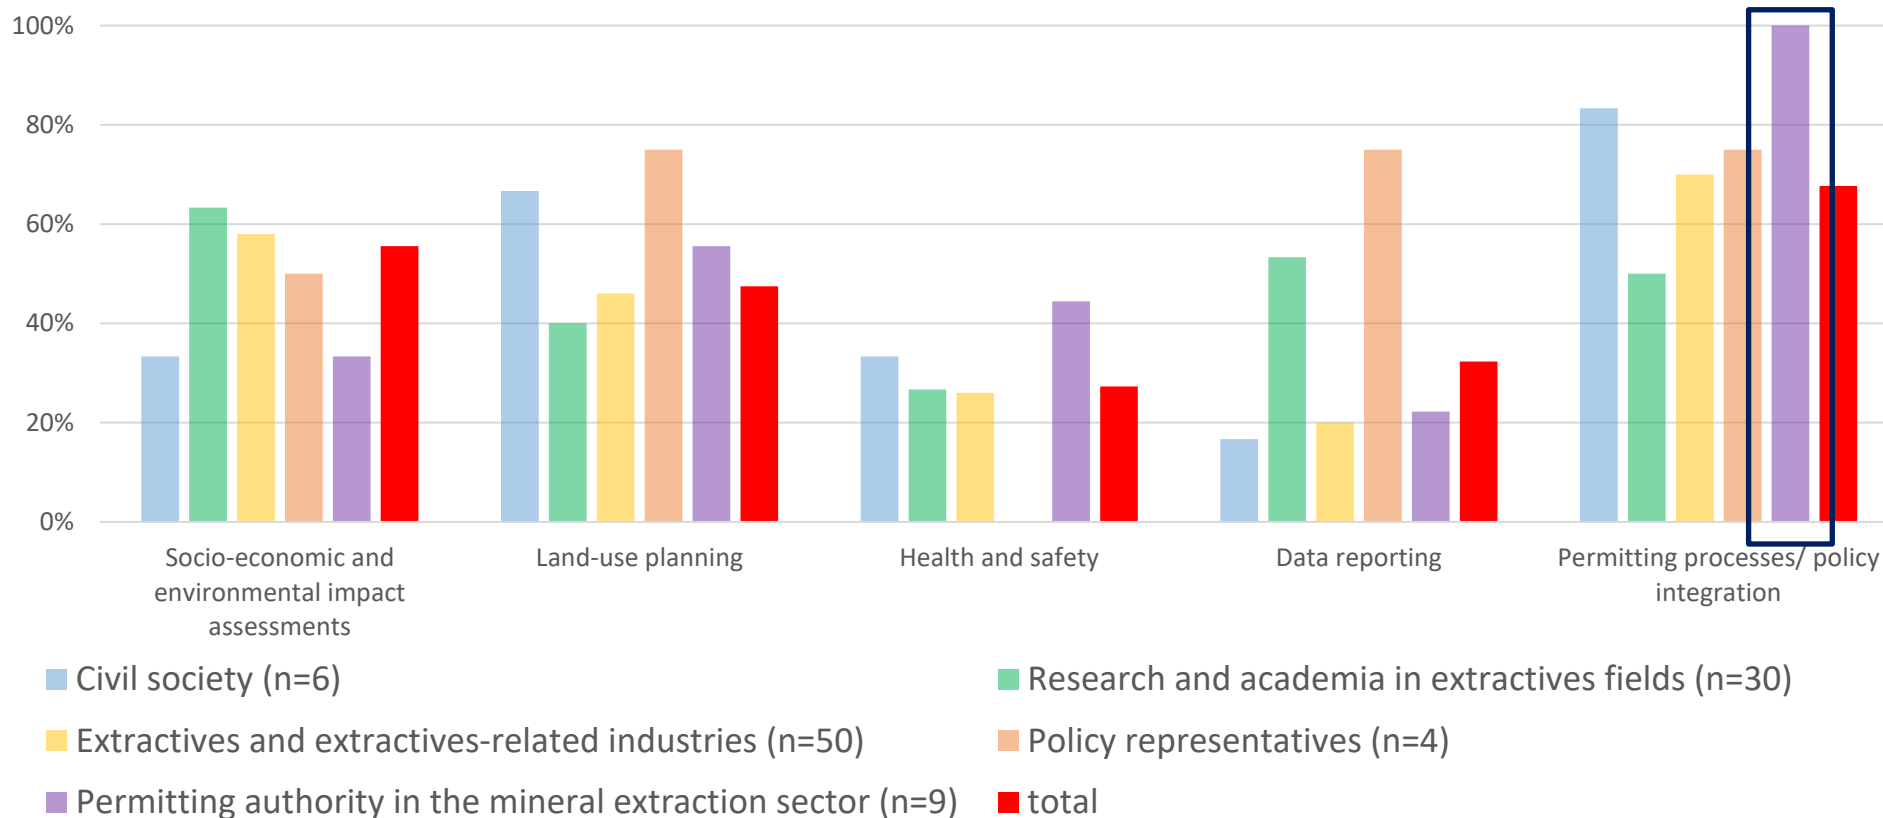

In your daily working routine, in which SUMEX focus area would you personally most benefit from learning and exchange activities with other practitioners? (More than one answer possible.)

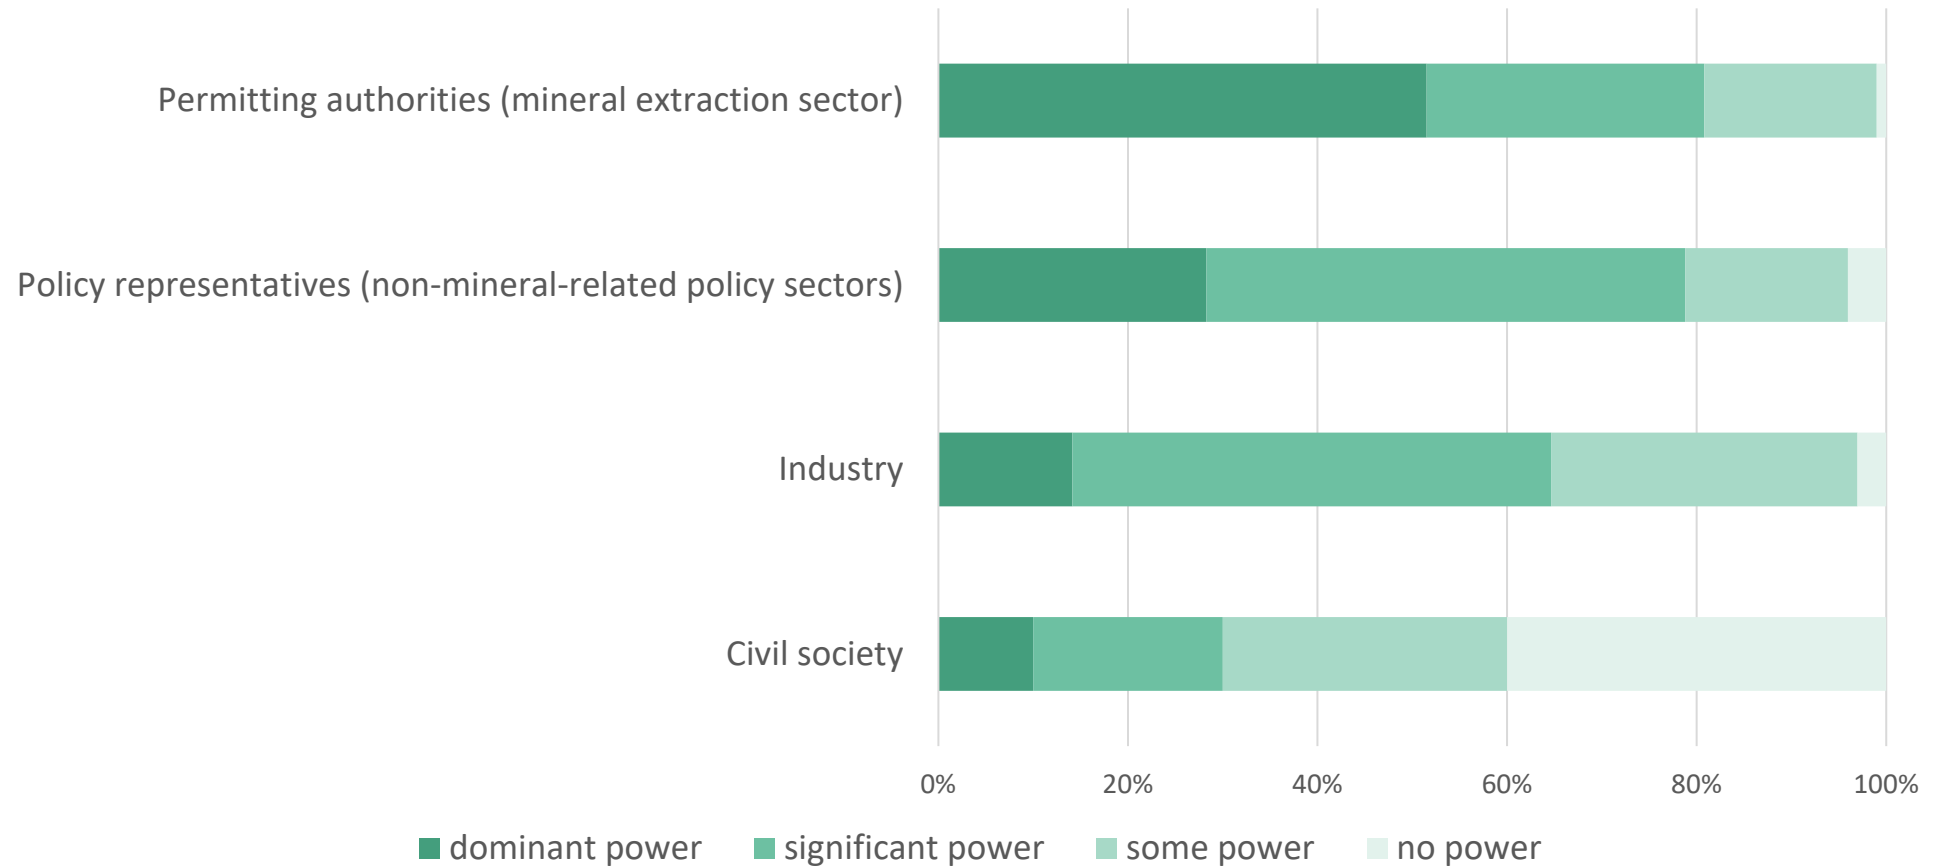

In your daily working routine, in which SUMEX focus area would you personally most benefit from learning and exchange activities with other practitioners? (More than one answer possible.)

In your opinion, how much power do the following stakeholder groups have to influence the improvement of sustainability in the extractive industries?

## Would capacity-building material in English be sufficient for you and the people with whom you work?

An illustration of a person wearing a yellow hard hat, a dark blue long-sleeved shirt, and light-colored pants. They are holding a yellow pencil and a pair of purple glasses. The person is sitting on a white, cloud-like shape that frames the text.

THANK YOU

A small illustration of a brown and green bird in flight, positioned on the left side of the white cloud-like shape.
