

Sustainable Management in Extractive Industries

Michael Tost

Montanuniversität Leoben

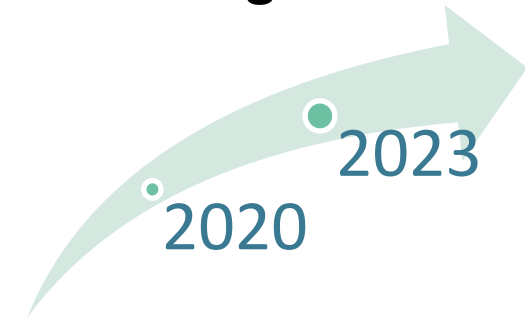

H2020 project

- Responding to important **societal challenge** – raw material demand and sustainability

Running from

- **Strengthen policy coordination and agenda setting along the mineral extraction value chain**
- Definition and operationalisation of **sustainable management in the EU context**
- **Clustering with other projects** to identify good practices and good practise principles
- **Policy analysis, good practises and use cases**
- Development of a **digital toolkit**
- Establishment of a **Community of Practice (CoP)**

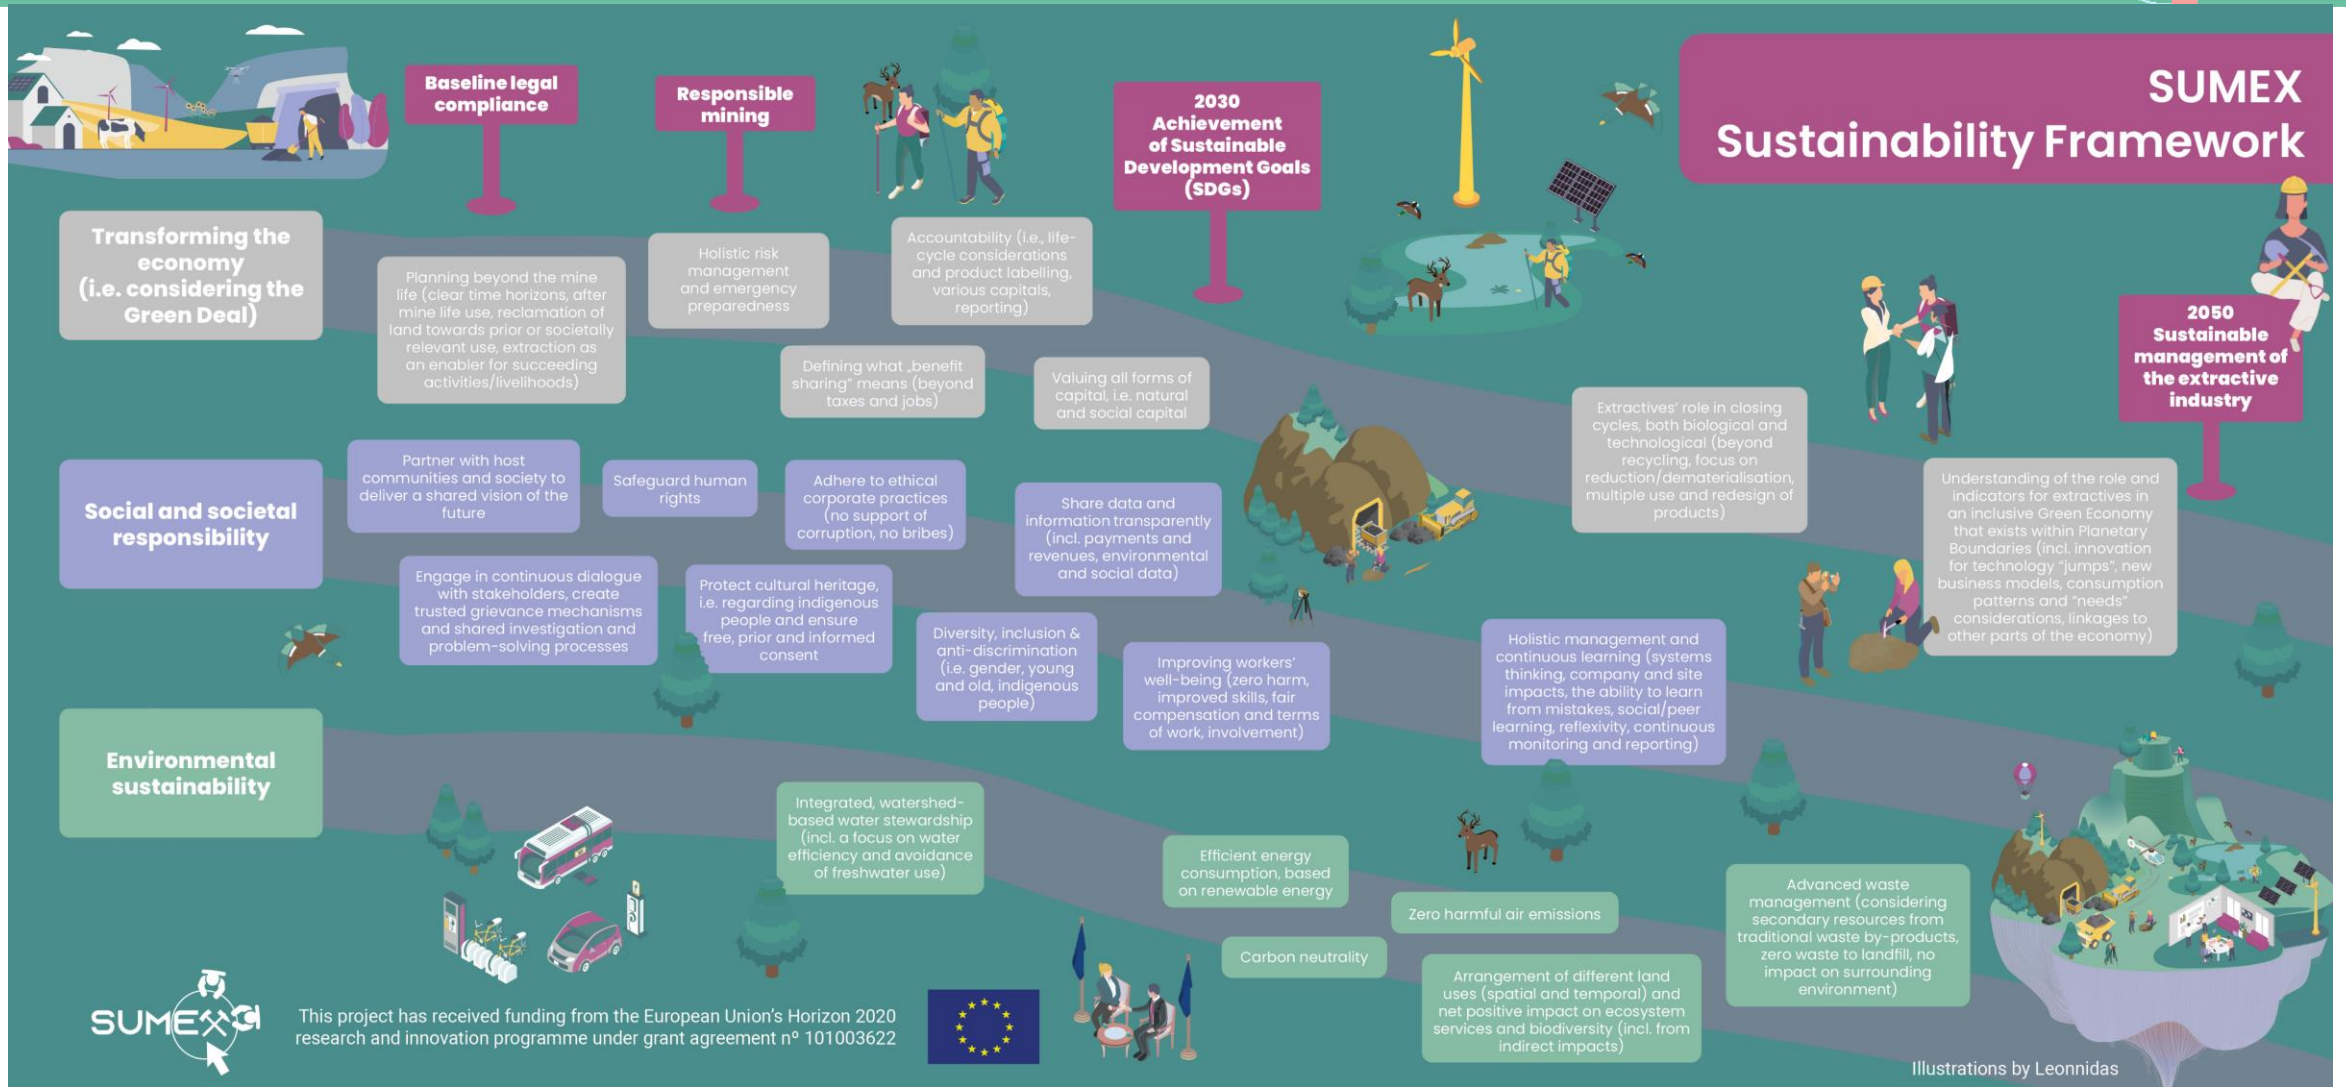

Definition and operationalisation of sustainability in the EU context

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement n° 101003622.

Project Output - European Extractives Sustainability Framework

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement n° 101003622

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement n° 101003622.

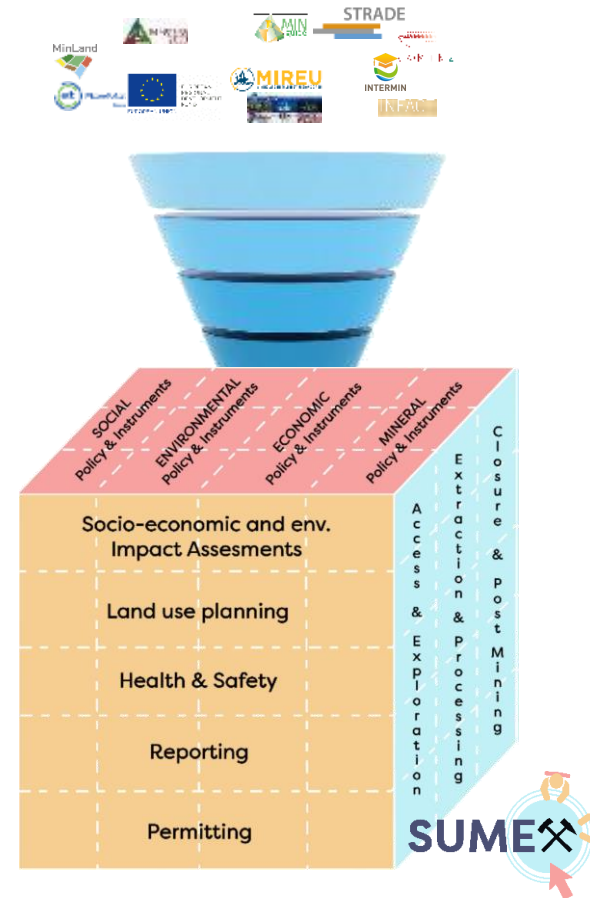

Clustering with other projects to identify good practices and good practise principles

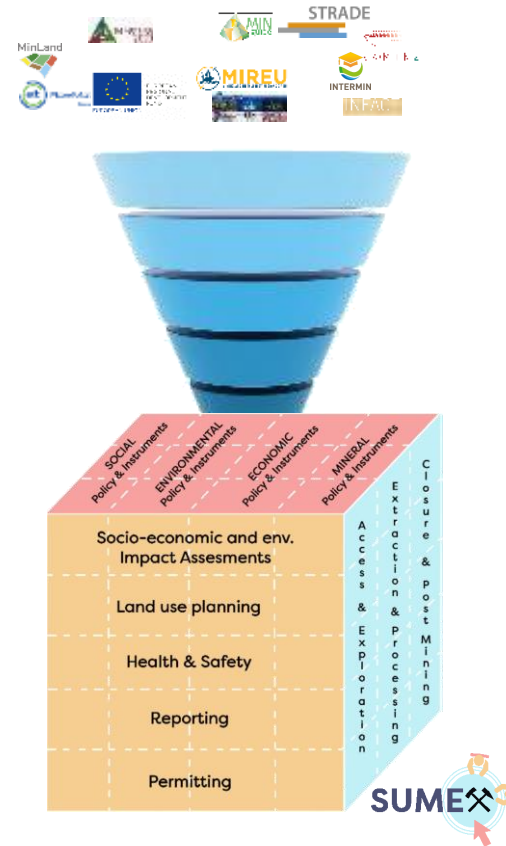

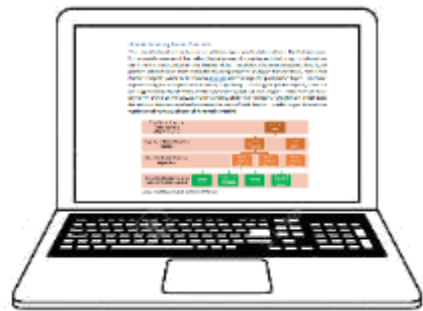

- **Meta-analysis** of EU, member states and regional projects
- **Raw materials**, but also projects in the areas of **land use / landscape planning, environmental planning, regional development and socio-economic policy research**

- Social, environmental, economic and mineral **policies**
- Five policy **focus areas**
- **Battery and construction materials** use cases
- Extractives **value chain** coverage

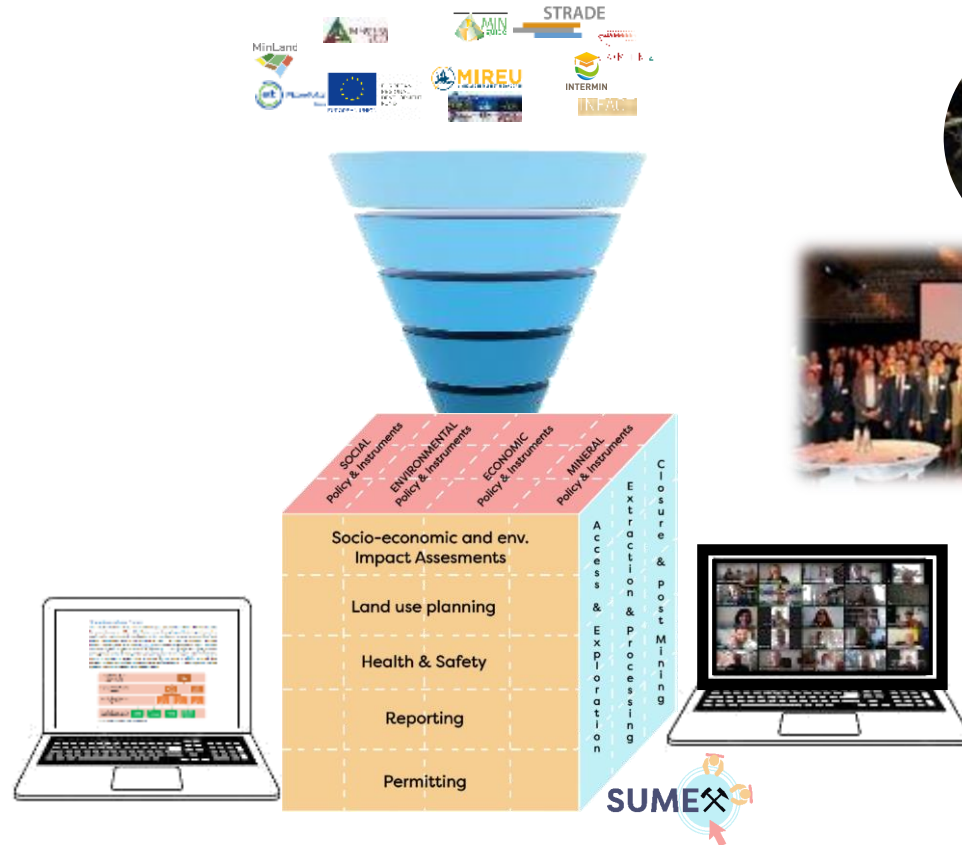

- **Portal** of actionable knowledge
- **Digital meeting space** to learn & exchange - **MOOC**

Establishment of a community of practise (CoP)

- **Leaders and Learners League (3L)**
- **Engagement and peer learning**
- **Webinars, workshops and conferences**
- **Newsletter, videos, reports, policy briefs, etc.**

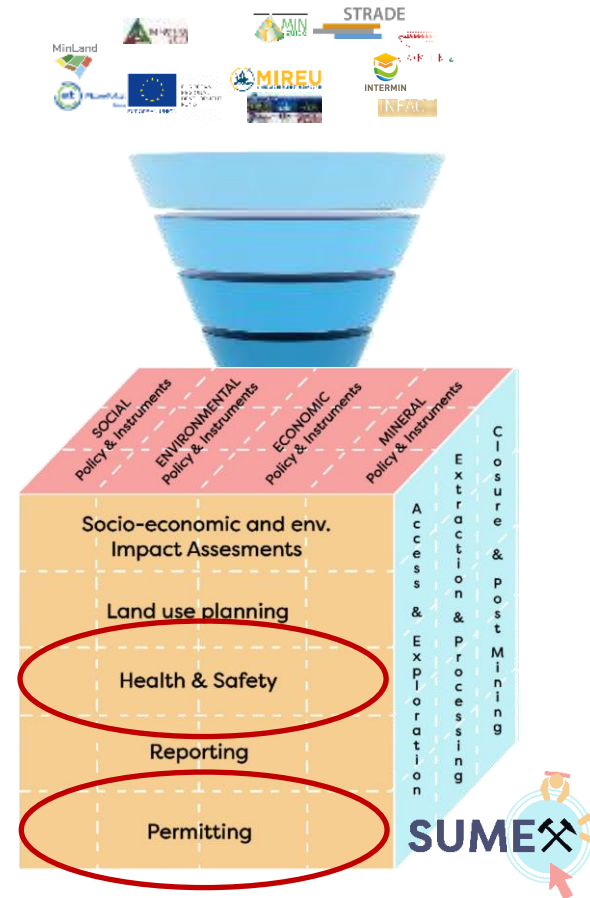

Health & safety and permitting within the frame of sustainability

- Social, environmental, economic and mineral **policies**
- Five policy **focus areas**
- **Battery and construction materials** use cases
- Extractives **value chain** coverage

Peer-learning workshops

- 4 Regional workshops
- 1 general workshop in November 2022

23 Nov 2021  Nov 2022

Regional Workshop	West	North	East	South	Brussels
Focus Area					
Socio-economic		x			x
Land use planning	x				x
Health & Safety			x		x
Reporting				x	x
Permitting	x	x	x	x	x

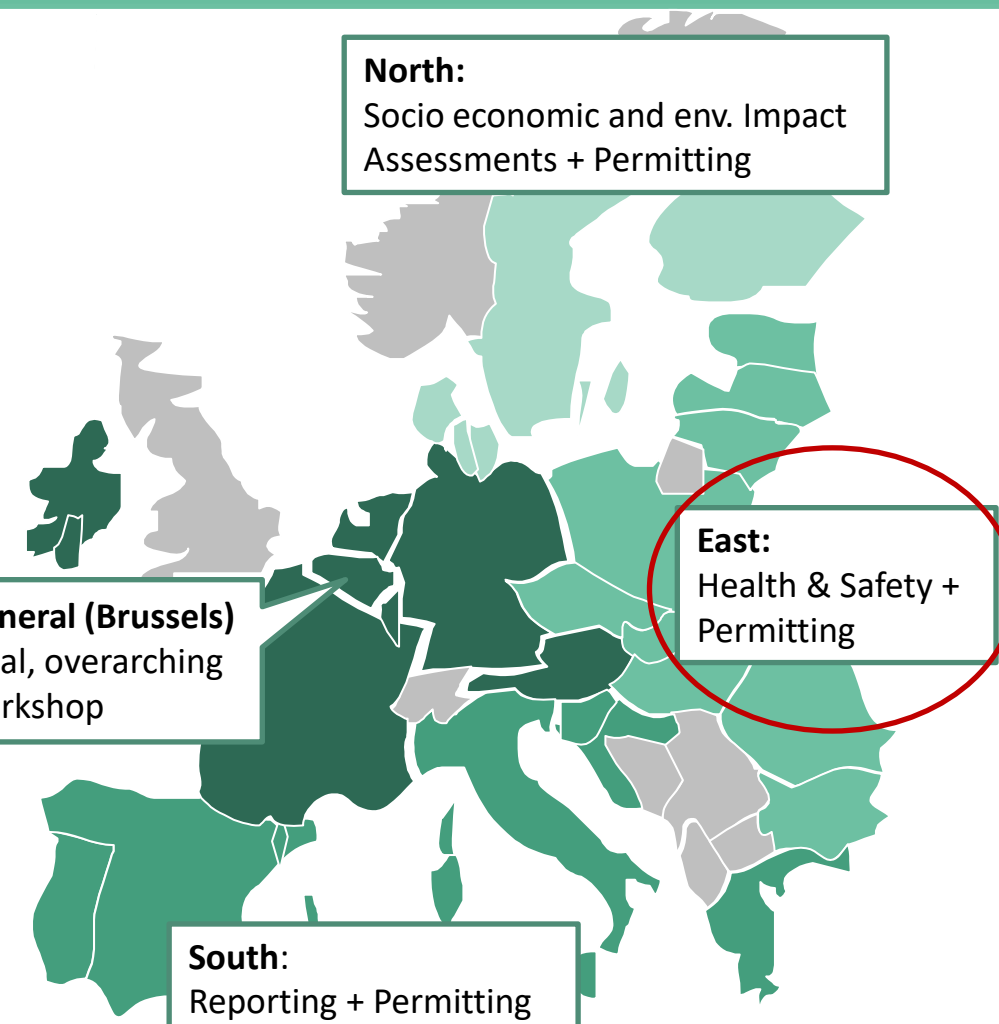

West:
Land use planning
+ Permitting

General (Brussels)
Final, overarching
workshop

North:
Socio economic and env. Impact
Assessments + Permitting

East:
Health & Safety +
Permitting

South:
Reporting + Permitting

- Many companies now have the goal of archiving zero harm. Where do we stand and what needs to happen still?
- Commitments vs. actual implementation
- What are the areas of concern on the ground?
- Game changers on the horizon?

- Sustainable mining vs. permitting
- The role of SLO in the permitting process
- Challenges on the ground

THANK YOU
